

# HEREFORDS AUSTRALIA PARENT VERIFIED STATUS

## Parent Verification Explanation

### NOT TESTED

The animal has not been verified to sire or dam using DNA Verification.

### VERIFIED

The sire/dam has been DNA Verified as correct. (If a sire or dam is NOT excluded from the G Matrix then for registration purposes Herefords Australia will consider that sire or dam to be correct unless any further testing proves otherwise.)

### NOT VERIFIED

The animal is not DNA verified to its pedigreed parent and re-testing has commenced as per the HAL DNA Policy.

### FAILED

The animal has failed DNA verification to the sire/dam after re-testing in accordance to the Company's DNA Policy and no alternate sire or dam has been identified.

### NOT VERIFIABLE

If the animal is born prior to 1 January 2018 and has been DNA tested however the listed sire/dam is not DNA verified and no further re-collection and testing of DNA samples is possible in accordance to the Company's DNA Testing Policy.
