### Breed Code

The breed code is an 8-letter code describing breed composition of the animal using the codes given in the table below.

Code	Breed
AA	Angus
BB	Brahman
BF	Braford

DM	Droughtmaster
HH	Hereford

its breed code will be: HHHH BB SG

Each animal must have a unique Ident. Idents are made up of the breeders Herd letters, followed by the year letter, and animal number which must be a minimum of three numbers (e.g. ear tag or tattoo number).

Year letters are used as part of an animal's Ident to indicate year of birth. To avoid confusion, a standard system has been adopted in Australia using all letters of the alphabet except 'I' and 'O'.

Year	Letter
2015	L
2016	M
2017	N
2018	P
2019	Q
2020	R
2021	S
2022	T
2023	U
2024	V
2025	W
2026	X

For example:

If your herd letters are XBA, the animal was born in 2021, and its tag number is 50 then its Ident will be XBAS050
